

Yvonne Rodriguez

As Director of Field Operations for Animal Services, I bring 18 years of experience in Animal Law Enforcement and fieldwork. My role involves overseeing teams that manage Animal Control, rescue operations, diverse Animal Welfare Hearings and animal welfare services which include ensuring compliance with relevant laws and regulations. With nearly two decades in the field, three of those as the Lead Hearing Examiner for the Department of Animal Services, I have honed in my expertise in leading teams and disseminating information to the General Public. I believe my leadership emphasizes public education, staff safety, humane education for animal care and driving impactful results in the City of Los Angeles.
