

Amanda Sena

I am 35 years old and a mother of twin girls. I have been involved in the animal welfare world since I was 18 years old, starting out as a volunteer at the Tracy Animal Shelter and was eventually hired as a kennel aide. I have been working here for 8 years and have moved up to an Animal Services Officer II. I am hoping to become lead officer in the near future.

I enjoy working with animals and really enjoy helping people. I oversee our homeless and their pets and have gained a strong connection to a lot of them. I provide their pets with vaccines, microchips and free spay/neuters. I am always the first to sign up to participate in community events as being around people and seeing how much joy a cat or dog can bring them is super fulfilling. I love spending time with my family, listening to music, and dancing. My future goal is to travel as many places as possible but I'm taking it one step at a time.
