

## Erin Evans

Hello, my name is Erin Evans, and I am currently the Personnel Manager for the City of Fresno's Animal Center. I have been with the City of Fresno for six years now and have been in this role for just over a year. I currently oversee recruitment, hiring, onboarding, training, safety, policy and procedure, employee engagement and other items at the Center. I have been a lifelong animal lover, but only got involved in TNR over the past five years. This led me to see the need for services in our community. I am passionate about our community and want to help by helping our animals. I look forward to enhancing my knowledge about shelter operations in this course.
